PARTNER

Abu Dhabi Airports, a wholly owned company of ADQ, is responsible for operating five key airports within the emirate: Abu Dhabi International Airport, Al Ain International Airport, Al Bateen Executive Airport, Sir Bani Yas Island Airport, and Delma Island Airport. Since its inception, Abu Dhabi Airports has been committed to delivering world-class aviation services and facilities, facilitating seamless travel for millions of passengers while connecting communities and fostering economic growth.

With a focus on elevating Abu Dhabi as a global aviation hub, the company continually enhances passenger and airline experiences through state-of-the-art infrastructure and innovative operations. One of the crown jewels of this effort is the new Terminal A at Abu Dhabi International Airport. Covering a sprawling 742,000 sqm, Terminal A is one of the largest airport terminals in the world, capable of handling up to 45 million passengers annually. This iconic terminal promises to boost Abu Dhabi's position as a premier gateway for both business and leisure travelers, offering cutting-edge facilities and a significantly expanded operational capacity.

Abu Dhabi Airports' commitment to excellence has been recognized through numerous prestigious awards for its achievements in operational efficiency, marketing, training, and corporate responsibility. The company continues to play a pivotal role in shaping the future of aviation in the region, promoting Abu Dhabi's standing on the global stage.

ريادة التقى وابتكار في مجال الطيران والمناطق الحرة

Pioneering Growth & Innovation in Aviation & Free Zones

PARTNER

The Abu Dhabi Investment Office (ADIO) plays a central role in attracting and supporting investments across the emirate. Our mission is to drive Abu Dhabi's economic diversification by fostering a thriving private sector and creating a sustainable business environment. We act as a catalyst for growth, enabling businesses of all sizes to set up, expand, and thrive in Abu Dhabi. Through innovation-focused platforms, regulatory guidance, and strategic partnerships, we empower investors with the resources they need for long-term success.

At ADIO, we are committed to creating a future where innovation, ambition, and collaboration come together to propel both businesses and the Abu Dhabi economy forward. By facilitating access to key data, infrastructure, and an extensive innovation ecosystem, we enable businesses to achieve their goals while making a positive impact on the region. Our values of empowerment, partnership, innovation, and commitment guide every aspect of our work as we shape Abu Dhabi into a global destination for investors.

Our role extends beyond mere facilitation; we are partners in growth, offering investors comprehensive support to navigate opportunities and challenges alike. Whether you are a startup or a large multinational corporation, ADIO provides you with the tools, insights, and access to Abu Dhabi's broader ecosystem, ensuring seamless market entry and a pathway to sustainable growth.

PARTNER

Abu Dhabi Transport Company is dedicated to making transportation more accessible and efficient for people across the Emirate. By developing and managing a variety of urban and suburban transport options, including rail systems and innovative public transit solutions, ADT aims to enhance everyday mobility. In addition to expanding urban rail networks, utilising advanced technologies to support net zero agenda's. The company is committed to providing flexible, user-friendly transport options. Through these efforts, ADT supports Abu Dhabi's vision for a connected and integrated transport system, while also investing in the growth of the local transport industry, and thus contributing to the Emirate's livability and overarching ambition to be one of the top 30 cities in the global traffic index by 2045.

أكثر من مجرد رحلة
More than a Journey

PARTNER

Dubai is one of the fastest growing cities in today's world, making the provision of high quality infrastructure facilities absolutely imperative. With that in mind, as well as the high priority allocated by the government of Dubai to the provision of an advanced transport network for the people of Dubai, RTA endeavours to improve the public transport facilities and develop roads across the emirate to make travel safer and smoother.

SILVER SPONSOR

ALSTOM

Alstom is a global leader in sustainable and innovative mobility solutions, specializing in rail transport infrastructure and services. With a presence in over 60 countries, Alstom's comprehensive portfolio includes trains, signaling systems, and maintenance services designed to enhance rail networks worldwide. The company's mission is to drive the future of transportation by focusing on eco-friendly technologies and delivering efficient, reliable, and safe solutions for passengers and freight alike.

Alstom is committed to shaping the future of mobility with a focus on sustainability and digital transformation. Their expertise extends to advanced rail systems, including high-speed trains, metros, and light rail, as well as smart infrastructure that optimizes network performance and reduces environmental impact. By investing in cutting-edge research and development, Alstom aims to deliver innovative solutions that meet the evolving needs of urban and intercity transportation.

In addition to its core offerings, Alstom plays a crucial role in supporting the global shift towards green transportation. The company is dedicated to reducing carbon emissions and improving energy efficiency through its state-of-the-art technologies and sustainable practices. Alstom's commitment to safety, reliability, and passenger satisfaction underpins its mission to create a more connected and sustainable world.

With a rich history and a forward-looking vision, Alstom continues to push the boundaries of rail transport, providing comprehensive solutions that drive progress and enhance the quality of life for communities around the globe.

SILVER SPONSOR

ARUP

Arup is a global firm specializing in engineering, design, and consulting services, renowned for its commitment to delivering innovative and sustainable solutions across various sectors. With a presence in over 35 countries, Arup's multidisciplinary expertise spans architecture, engineering, planning, and consulting, aimed at creating transformative projects that enhance the built environment.

Arup's mission is to shape a better world through creative problem-solving and cutting-edge design. The firm works on a wide range of projects, including infrastructure, buildings, and urban planning, leveraging its deep technical knowledge and collaborative approach to achieve exceptional results. Arup's focus on sustainability drives its efforts to develop environmentally responsible solutions that address pressing global challenges, such as climate change and resource efficiency.

The company is dedicated to integrating advanced technologies and innovative practices to deliver projects that are both functional and resilient. Arup's portfolio includes iconic structures, complex infrastructure systems, and smart city developments, reflecting its expertise in designing solutions that stand the test of time and improve the quality of life for communities.

Arup's collaborative culture and commitment to excellence underpin its approach to tackling the world's most complex challenges. By fostering a culture of creativity and inclusivity, Arup continues to push the boundaries of what's possible, driving progress and shaping a sustainable future for generations to come.

We shape a better world

Arup is a collective of designers, consultants and experts dedicated to sustainable development, and to using imagination, technology, and rigour to shape a better world.

SILVER SPONSOR

HATCH

Passionately committed to the pursuit of a better world through positive change. We embrace your visions as our own and partner with you to develop ideas that are smarter, more efficient, and innovative. Our global network of 10,000 professionals work on the world's toughest challenges, with experience spanning over 150 countries around the world in the metals, energy, and infrastructure sectors.

Employee-owned and independent—free to bring our best thinking to your business. Our exceptional, diverse teams combine vast engineering and business knowledge, working in partnership with our clients to develop market strategies, manage and optimize production, develop new game-changing technologies, and design and deliver complex capital projects.

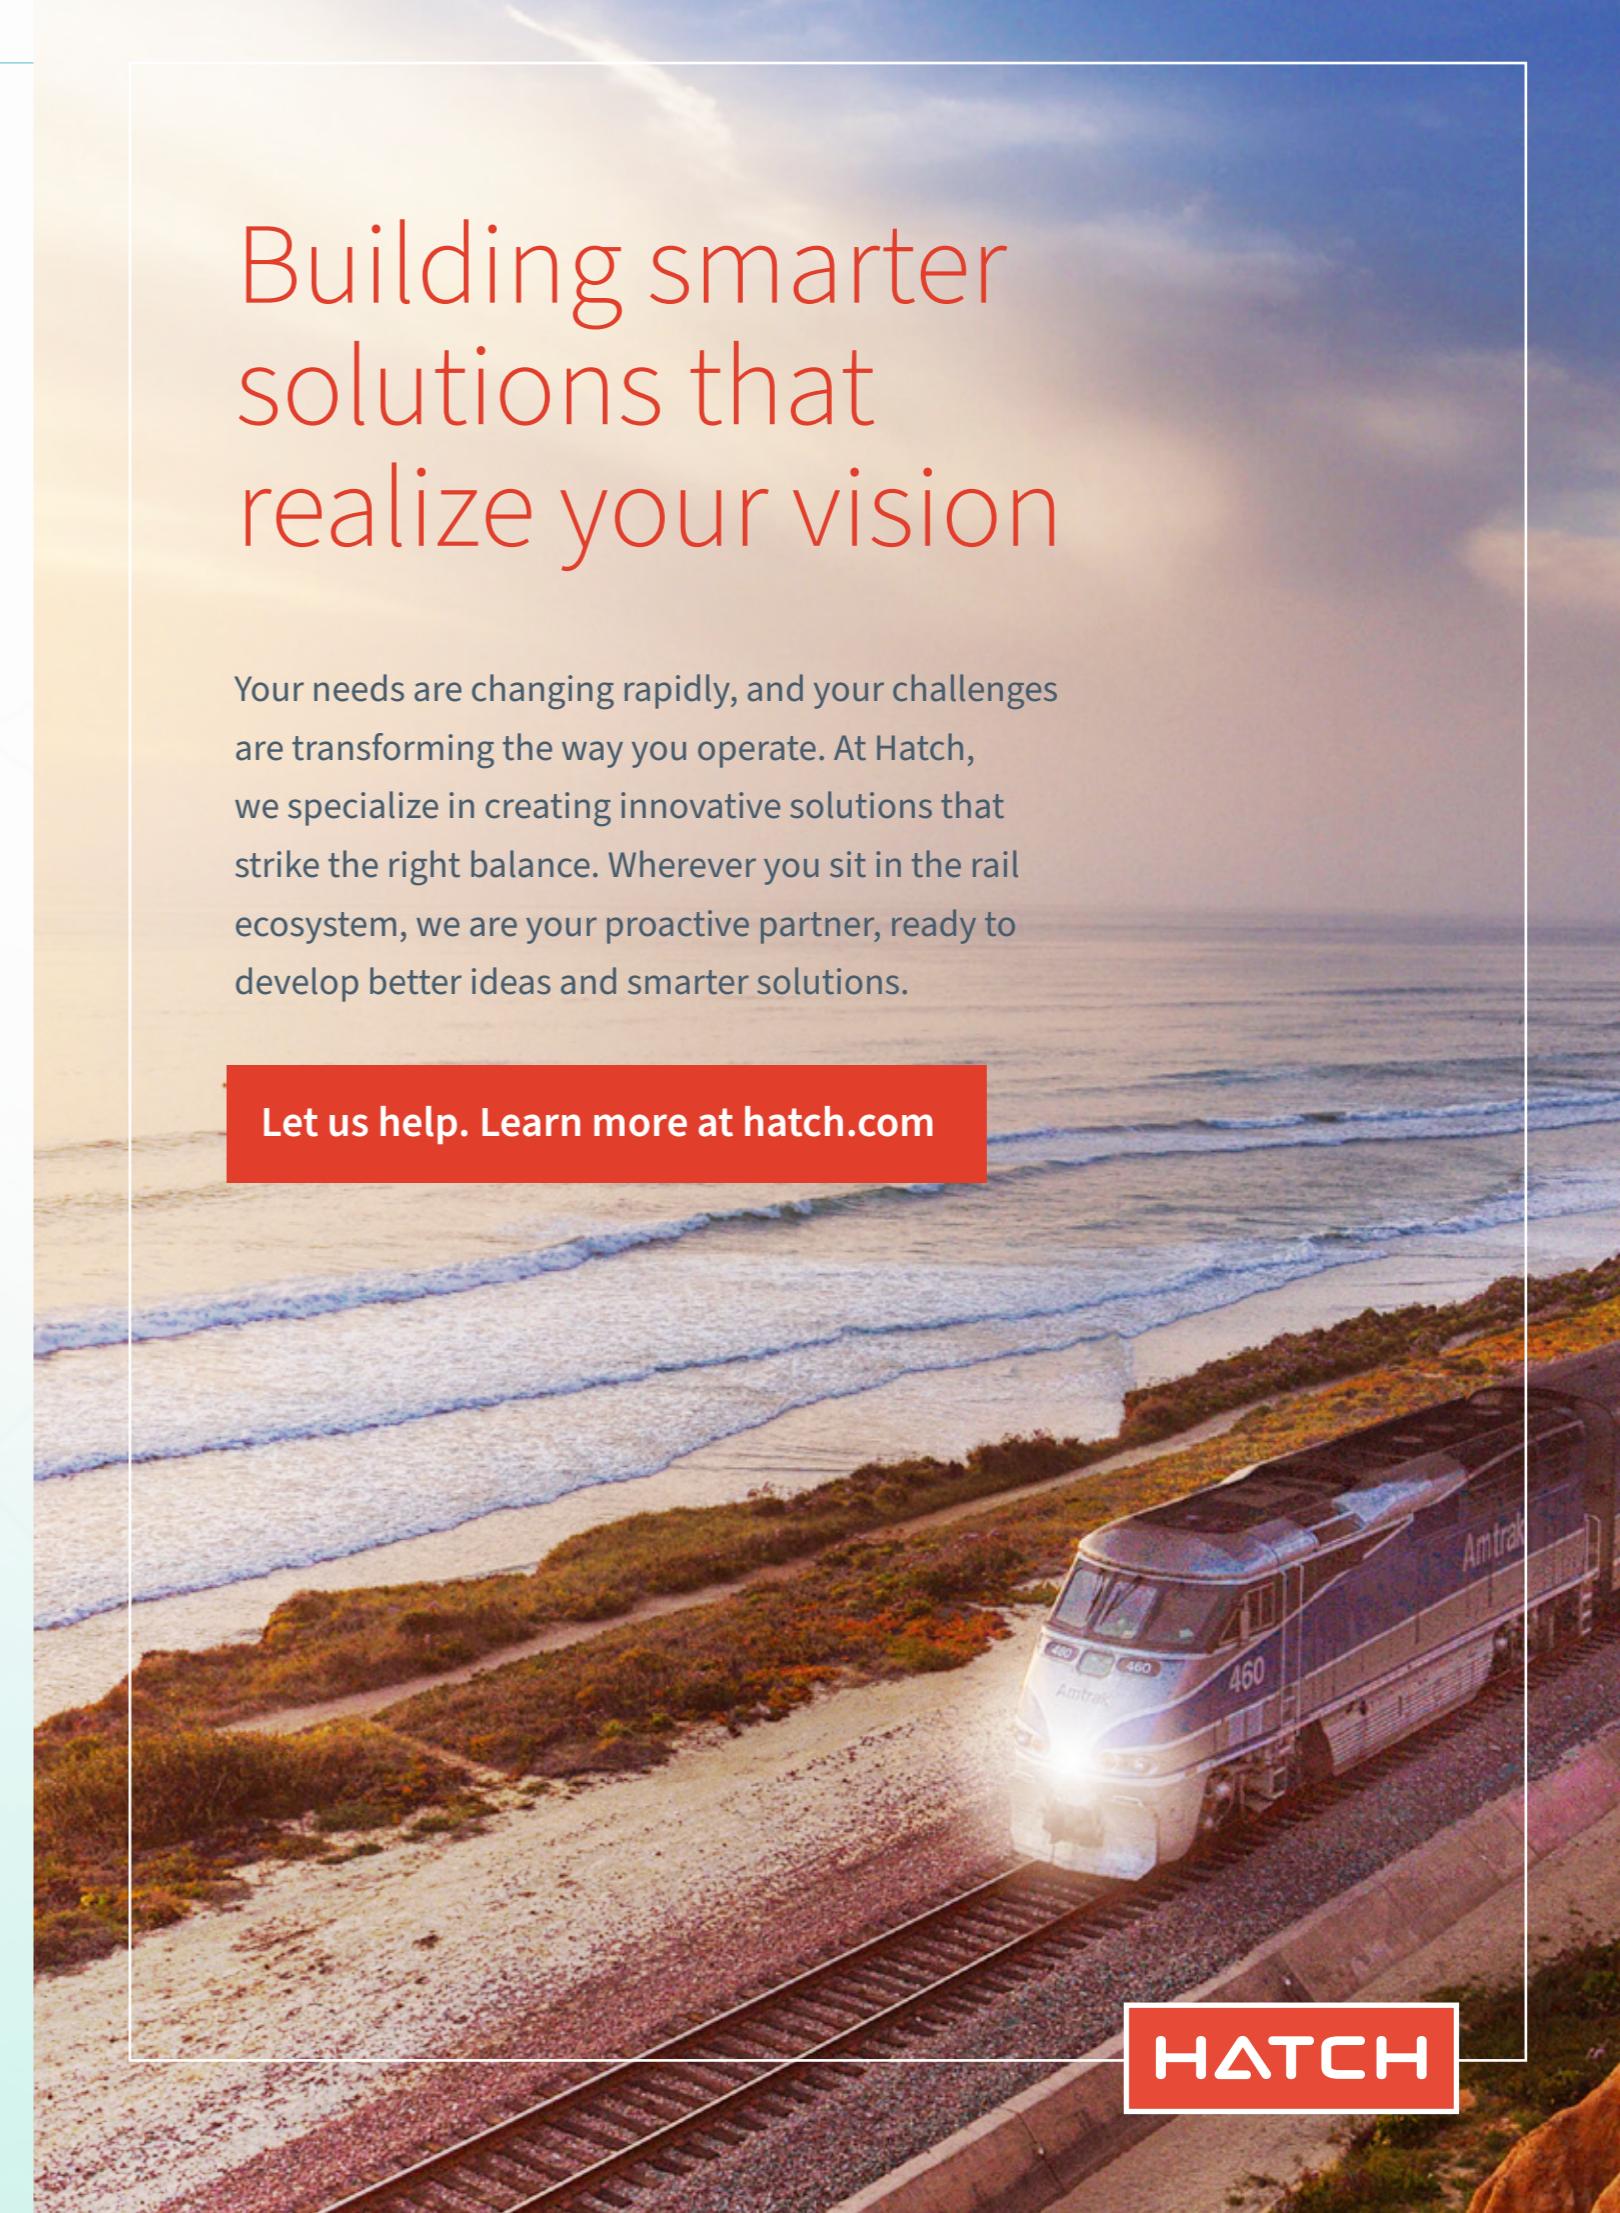

Our people are passionate about our corporate purpose and values. We believe in long-term relationships with our partners, and are committed to our clients' lasting success.

We are "entrepreneurs with a technical soul".

Building smarter solutions that realize your vision

Your needs are changing rapidly, and your challenges are transforming the way you operate. At Hatch, we specialize in creating innovative solutions that strike the right balance. Wherever you sit in the rail ecosystem, we are your proactive partner, ready to develop better ideas and smarter solutions.

Let us help. Learn more at hatch.com

SILVER SPONSOR**Jacobs**

Jacobs is a global solutions provider dedicated to addressing critical challenges across various sectors, including resilient cities, infrastructure, and space exploration. With approximately \$16 billion in annual revenue and over 60,000 employees worldwide, Jacobs offers a broad spectrum of professional services, including consulting, technical expertise, and project management for both government and private sectors.

The company's mission focuses on driving innovative outcomes in fields such as climate response, water reuse, defense, and digital transformation, making a sustainable impact globally. Jacobs is committed to sustainability and the advancement of technology, partnering with clients to tackle pressing issues like urban resilience, environmental protection, and water scarcity. By leveraging data, technology, and design thinking, Jacobs leads in creating sustainable, livable communities and supporting large-scale infrastructure development.

In the aerospace and defense sectors, Jacobs collaborates on cutting-edge space exploration initiatives and advanced defense systems. Its work in digital transformation and smart city development highlights its dedication to integrating intelligent solutions that future-proof industries and enhance quality of life. Continuously pushing the boundaries of innovation, Jacobs drives impactful change across a wide range of industries.

Jacobs
Challenging today.
Reinventing tomorrow.

At Jacobs, we make the world smarter, more connected and more sustainable.

Whether your journey includes keeping pace with capacity demand, accelerating technology innovations, ensuring safety and security, or maintaining transport networks, Jacobs is on board to serve all aspects of rail and transit solutions.

DRIVING REGIONAL GROWTH THROUGH
PARTNERSHIPS AND INNOVATION IN
TRANSPORTATION & TECHNOLOGY

We aim to drive sustainable growth through strategic partnerships, international knowledge transfer and regional talent development. With key alliances in major rail projects like Etihad Rail and Dubai Metro, we deliver comprehensive solutions from project initiation to after-market services, ensuring long-term success.

STRATEGIC INSIGHTS PARTNER

PwC is one of the world's largest providers of assurance, tax, and business consulting services. We believe that the best outcomes are achieved through close collaboration with our clients and the many stakeholder communities we serve. So every day, 364,000 PwC people in 158 countries work hard to build strong relationships with others and understand the issues and aspirations that drive them.

At PwC, we measure success by our ability to create the value that our clients, our people and the wider investing public are looking for. As a one of the world's largest professional services firms, PwC can offer a wide range of services and brings variety of skills and experience to bear on your issues.

Established in the Middle East region for 40 years, PwC has over 11,000 people across 12 countries. Complementing our depth of industry expertise and breadth of skills is our sound knowledge of local business environments across the Middle East. We operate in: Bahrain, Egypt, Iraq, Jordan, Kuwait, Lebanon, Libya, Oman, the Palestinian territories, Qatar, Saudi Arabia and the United Arab Emirates.

Reimagining the future of rail mobility in the GCC

At PwC, we're focused on guiding railway executives through the rapidly evolving landscape of Middle East rail transportation. From conventional to high-speed rail, metros, and light transit rail, our advisory services are designed to help you navigate the complexities and seize opportunities within the rail industry. Our dedicated railway team in the region, recognized with the Diamond rating for Transport and Logistics by Consulting Magazine Middle East (2023), is here to help you drive innovation and efficiency in your rail operations, network development, and commercial strategy.

Ministerial Representation at Global Rail

STRATEGIC CONFERENCE PROGRAMME

Held under the theme, 'Setting Transport Infrastructure and Global Connectivity in Motion Global Rail 2024' will unite policymakers, network operators, transport authorities, financiers, technology pioneers, developers and OEMs, to discuss actionable strategies for realising rail's transformative potential for communities, climate, and economies.

The three-day Global Rail Strategic Conference will identify strategic pathways for unlocking value in the railway project lifecycle, through global and cross-sector collaboration supported by regulation and policy mechanisms designed to accelerate innovation, scale new technologies, advance digital transformation and unlock rail's potential as an enabler of economic growth, supply chain resilience and decarbonisation.

Close of Strategic Conference - Day 1

Strategic Conference Programme

WEDNESDAY
9 October
DAY 2

10:10 - 10:15

Global Rail welcome note

H.E. Shadi Malak
 Chief Executive Officer
Etihad Rail

MINISTERIAL
10:15 - 10:45

PANEL: The role of railways in driving economic development

H.E. Mothanna Ghabraibeh
 Minister of Investment
Jordan

H.E. Liburn Aliu
 Minister of Environment,
 Spatial Planning and
 Infrastructure
Kosovo

H.E. Hon. Fred Byamukama
 State Minister of Transport
Uganda

H.E. Ngalle Bibehe Jean Ernest Massena
 Minister of Transport
Cameroon

Salim A. Essaid
 Business Editor
The National
Moderator

POLICY
10:45 - 11:20

PANEL: From road to rail: policy and governance mechanism to drive modal shift and advance decarbonisation agendas

Carlo Palasciano Villamagna
 Executive Chairman
Mercitalia Logistics

Howard Rosen
 Chairman
Rail Working Group

Sacha Parneix
 Vice President Commercial
Alstom AMECA

Keith Lawson
 Senior Vice President and
 General Manager Asia Pacific,
 Middle East & Europe
Jacobs

Dr. Christian Gasparic
 Partner, Dubai, UAE
Kearney, Worldwide Lead for the Kearney Center of Advanced Mobility
Moderator

INTEGRATED TRANSPORT
11:20 - 11:45

PANEL: Exploring the role of aviation in an integrated transport ecosystem

Frank McCrorie
 Chief Operations Officer
Abu Dhabi Airports

Leonardo Rodrigues
 Acting Managing Director
 Head of Revenue Management
 & Network Planning
Etihad Cargo

Andrew Ward
 Director, Transport & Logistics

Global Rail Technical Conference

The Global Rail Technical Conference will address cutting edge R&D from technology pioneers, research institutes, consortiums, industry and academia, with the potential to disrupt rail operations, maintenance, passenger experience, and project delivery, and unlock value for multiple stakeholders across the rail, transport and mobility value chains.

8+

Technical Categories

45+

Global Speakers

15+

Focus Sessions

Technical Conference Categories

Innovation in Construction and Infrastructure

Sustainable solutions for driving down project costs, reducing project timelines and increasing stakeholder collaboration, and cutting-edge innovations in rail track design and engineering, station design, tunneling and overhead lines, to advance electrification, reduce infrastructure costs, and increase network capacity.

High-Speed Rail

The latest innovations in high-speed rail engineering, planning and design.

Rolling Stock Innovation

Innovations to improve the sustainability, safety, life cycle and cost of rolling stock including, hydrogen fuel cell and battery powered locomotives.

Digital Rail

Harnessing the potential of 4IR technologies such as AI, IIoT and blockchain for operational efficiencies, predictive maintenance, Intermodal and Multimodal Connectivity and transparency across rail and transport value chains.

Passenger Experience

Passenger-centric solutions such as smart ticketing, 5G, MaaS and integrated mobility platforms to increase ridership across rail networks and the seamless integration of passenger rail with mobility ecosystems.

Safety and Security

Next generation solutions supported by AI, edge computing, IIoT and cloud applications for the secure operation of rail infrastructure and the real-time monitoring of passenger and employee safety.

Urban Planning and Smart City Development

Novel methods for integrating rail networks into smart city and sustainable urban environments.

TECHNICAL CONFERENCE PROGRAMME

The Global Rail Technical Conference will showcase cutting edge R&D from technology pioneers, research institutes, consortiums, industry and academia, with the potential to disrupt rail operations, maintenance, passenger experience, and project delivery, and unlock value for multiple stakeholders across the rail, transport and mobility value chains.

Global Rail 2024 will unite policymakers, network operators, transport authorities, financiers, technology pioneers, developers and OEMs, to discuss actionable strategies for realising rail's transformative potential for communities, climate, and economies.

Global Rail Technical Conference

TUESDAY 08 OCTOBER 2024

CATEGORY: DIGITAL RAIL
SESSION: 1
TITLE: AI, PREDICTIVE MAINTENANCE AND DIGITAL RAIL

CATEGORY: HIGH-SPEED RAIL
SESSION: 2
TITLE: HIGH-SPEED RAIL INNOVATION AND PROJECT CASE STUDIES

PRESENTATION TITLES AND SPEAKERS

14:00 - 14:20	The future of autonomous railways, ports, and industrial facilities Harj Dhaliwal, Chief Business & Capital Programmes Officer, Nevomo	15:40 - 16:00	Velaro Novo - the innovative Siemens' high - speed train Meera Abu Soufah, Head of Sales and Business Development, Siemens Mobility UAE
14:20 - 14:40	Leveraging hybrid AI models: enhancing predictive maintenance through generative and explainable approaches Mohamed Habib Mazouni, AI and Innovation Development Director, Alstom	16:00 - 16:20	Rail Baltica traffic management system Sandro Benetti, Director, SYSTRA
14:40 - 15:00	Revolutionising rail maintenance: AI-Powered solutions by INECO Alberto Milanés, Director of Consultancy, Environment and IT, INECO	16:20 - 16:40	Impacts on spatial planning of high speed rail Marc Guigon, Consultant, MG Consult
15:00 - 15:20	Strategic Proposal for Data-Driven Advancements in the Railway Industry Victor Martinez, Head of Rail Digital Solutions, SKF Railway	16:40 - 17:00	Eurotunnel project Daria Collard, Projects Technical Coordinator, SYSTRA
15:20 - 15:40	Enhancing Rail Infrastructure with Kodify Limited: Leveraging Digital Twins and Advanced Sensing Technologies for Real-Time, Actionable Insight Muhammad Anwel, CTO, Kodify Limited		

Global Rail Technical Conference

TUESDAY 08 OCTOBER 2024

CATEGORY: URBAN PLANNING AND SMART CITY DEVELOPMENT
SESSION: 3
TITLE: TRANSIT-ORIENTED DEVELOPMENT (TOD)

Global Rail Technical Conference

WEDNESDAY 09 OCTOBER 2024

CATEGORY: INNOVATION IN CONSTRUCTION AND INFRASTRUCTURE
SESSION: 4
TITLE: INFRASTRUCTURE RESILIENCE AND MONITORING OF CRITICAL INFRASTRUCTURE

CATEGORY: DIGITAL RAIL
SESSION: 5
TITLE: APPLICATIONS OF AI, BIG DATA AND MACHINE LEARNING FOR RAILWAYS

PRESENTATION TITLES AND SPEAKERS

17:00 – 17:20 The impact and future of high-speed rail globally
Michele Gesualdi, Project Manager & Advisor, High-Speed Rail, Passenger Department Intercity & High-Speed Committee, International Union of Railways (UIC)

17:20 – 17:40 Multimodal transit – integration for smart sustainable developments
Gaurish Wagle, Manager, Sustainable Masterplanning, Masdar City

PRESENTATION TITLES AND SPEAKERS

10:00 – 10:20 Is rail resilience planning worth the investment?
TC Chew, Director, Arup Global Rail Business Leader, Arup

10:20 – 10:40 Using quality indices for condition-based rail management
Andreas Oberhauser, Senior Manager, Global Rail Group GRG GmbH

10:40 – 11:00 Unlocking the value potential of digital surface modelling for critical infrastructure
Petros Zouzoulas, Head of Innovation, EMEA, Parsons

11:00 – 11:20 Data Driven Decision Making: Managing the Challenges of Tomorrow's Railway
Hartwig Lankow, Vice President – Customer Management, Middle East & Eastern Africa, Voestalpine Railway Systems

11:20 – 11:40 Smart maintenance of railway infrastructure using ML models supported by physics model-based response
Prabakaran Balasubramanian, Senior Researcher, Technology Innovation Institute (TII)

11:40 – 12:00 AI Application through the project lifecycle
Petros Zouzoulas, Head of Innovation EMEA, Parsons

12:00 – 12:20 Connected Rails: The Role of AI platforms for next generation Railways
Martin Yates, Government Technology Advisor, Presight

12:20 – 12:40 AI-Driven Innovations in rail design: exploring how new technologies, can assist rail designers in delivering sustainable legacies
Mohamed Emad, Associate – Architecture, AECOM

12:40 – 13:00 Advances in the use of big data and predictive analysis in rail planning
Stephen Rutherford, Vice President and Global Market Director, Transport Planning, Jacobs

Global Rail Technical Conference

WEDNESDAY 09 OCTOBER 2024

CATEGORY: SUPPLY CHAIN RESILIENCY
SESSION: 6
TITLE: FUTURE -PROOFING SUPPLY CHAINS

CATEGORY: URBAN PLANNING AND SMART CITY DEVELOPMENT
SESSION: 7
TITLE: DIGITAL PLANNING AND SMART CITY DEVELOPMENT

Global Rail Technical Conference

WEDNESDAY 09 OCTOBER 2024

CATEGORY: SAFETY AND SECURITY
SESSION: 8
TITLE: SAFETY AND SECURITY – PASSENGER AND EMPLOYEE SAFETY

CATEGORY: PASSENGER EXPERIENCE
SESSION: 9
TITLE: PAYMENTS AND TICKETING

PRESENTATION TITLES AND SPEAKERS

14:00 - 14:20	DHL Logistics Trend Radar Klaus Dohrmann, Global Head of Innovation and Trend Research, DHL
14:20 - 14:40	Value Engineering of major Freight projects - Melbourne to Brisbane Inland Rail (MBIR) Project Australia Case Study Nilesh Patil, Technical Principal - Rail, Surbana Jurong

14:40 - 15:00	Master planning in the digital age Michael Houen, Director, Hatch Pty Ltd
15:00 - 15:20	Transforming urban mobility: connected Metrorail as a cyber-physical system in smart cities Alaa Mahjoub, Independent Digital Business Advisor
15:20 - 15:40	Predicting ridership for a new rail Infrastructure with artificial intelligence Jostein Hauken, Head of Consulting, Asistobe
15:40 - 16:00	Developing rail in future-proof cities Severine Marchal, Director, SYSTRA

PRESENTATION TITLES AND SPEAKERS

16:00 - 16:20	Hyderabad Metro's Safety Excellence: Advanced Security Measures and Proactive Strategies for Passenger Protection Murali Varadarajan, Chief Strategy Officer, L&T Metro Rail (Hyderabad) Ltd
16:20 - 16:40	Ensuring safety of railway projects - from design to operation Rene Bambor, Business Unit Manager Rail Services, TÜV SÜD
16:40 - 17:00	Enhancing Rail Industry HSE Performance through Employee Mental Health and Competency Amanda Aldred, Senior HSE Director, Middle East, Jacobs Mark Carrington, HSE Director, Jacobs

17:00 - 17:20	OSDM: a powerful and open tool for the future of rail-based and multimodal mobility Michele Gesualdi Project Manager & Advisor, High-Speed Rail Passenger Department Intercity & High-Speed Committee, International Union of Railways (UIC)
17:20 - 17:40	Transforming Urban Commutes: Hyderabad Metro's premier passenger experience and modern amenities Murali Varadarajan, Chief Strategy Officer, L&T Metro Rail (Hyderabad) Ltd

SESSION: 12
**TITLE: CLIMATE CHANGE RESILIENCE
AND ELECTRIFICATION**

CATEGORY: SAFETY AND SECURITY
SESSION: 13
**TITLE: CYBER SECURITY,
DIGITALISATION, AND
INTEROPERABILITY**

PRESENTATION TITLES AND SPEAKERS

10:00 – 10:20	Design and construction of a large - diameter metro tunnel in Eastern Canada Michael Dutton, Senior Tunneling Engineer, Arup
10:20 – 10:40	Integrated modern partnering for mega infrastructure projects Amar Shah, Director, Asia Corporate Training Ltd Philippe Degrange, Managing Partner and Facilitator, Asia Corporate Training Ltd
10:40 – 11:00	Recent innovations in rail manufacturing in India J S Kohli, Senior Manager, Steel Authority of India Limited (SAIL) Tijo Kuriakose, Assistant General Manager, Steel Authority of India Limited (SAIL)
11:00 – 11:20	Innovations in India's first high-speed rail corridor Akshay Wahal, Track Expert, Larsen and Toubro

11:20 – 11:40	Optimisation of fleet operational cost by using the train event recorder data: current use cases and future outlook Diego Politano, CEO, Haslerrail
---------------	--

11:40 – 12:00	Siemens unveils Vectron Dual Mode-B: Leading the future of eco-friendly and sustainable rail transport Lars Loewenstein, Senior Vice President, Siemens Mobility GmbH Jens Lind, Head of Locomotive – International, Siemens Mobility GmbH
---------------	--

12:00 – 12:20	Closing the loop with CALIPRI – Measuring, condition monitoring and demand planning Renate Grabler-Gussmagg, CEO, Hexagon NEXTSENSE
---------------	--

12:20 – 12:40	Ironlev magnetic levitation for standard rails Lorenzo Andrea Parrotta, Co-Founder and Board Member, IronLev
---------------	---

12:40 – 13:00	AI and advanced control systems to power the FluxJet for 1000 km/h+ Transportation Ryan Janzen, Co-Founder, Transpod Inc.
---------------	--

PRESENTATION TITLES AND SPEAKERS

13:40 – 14:00	Managing future climate conditions: A risk-based approach to climate change resilience for metro systems Kenneth Wiseman, Associate Director, Arup David Jewkes, Sustainability Consultant, Arup
---------------	--

14:00 – 14:20	Meeting the challenges of performance, resilience, and sustainability in rail infrastructures: how SYSTRA leverages digital continuity throughout the asset lifecycle Etienne Pansart, Head of Partnership and Academic Innovation, SYSTRA SA
---------------	--

14:20 – 14:40	India's first mainline electrification project using the Rigid Overhead Catenary System (ROCS) in Katra - Dharam section of USBRL Project Pritish Chandra Mohapatra, OCS Design Expert - Larsen & Toubro Limited, Larsen and Toubro
---------------	--

14:40 – 15:00	Cohabitation of heavy-rail and light-rail trains: a successful safety story in Montreal Sylvain Laporte, Regional Director – Rail, Hatch – Infrastructures
---------------	---

15:00 – 15:20	Urgent architectural imperatives in the face of cyber threats Beat Stettler, CEO, Onway ag
---------------	---

15:20 – 15:40	Clearance Innovation: unlocking revenue while ensuring safe operations Colin Johnson, Managing Director, DGauge TUV Rhienland
---------------	--

**Seamless Sea, Road, Air
and Rail Solutions from
Sharjah to the World**

About Us

Established in 1976 to manage the Sharjah Container Terminal, the first container terminal in the UAE and the Middle East, we are an international operator of ports and terminals, offering customised supply chain and logistics solutions.

In the UAE, we manage Sharjah Container Terminal and Khorfakkan Container Terminal and offer end-to-end supply chain and logistics solutions through our subsidiary, Momentum Logistics. Beyond the UAE, we manage ports in Saudi Arabia, Iraq and USA. We are the first and only operator from the Middle East to manage ports in the USA.

Our ports and terminals infrastructure on the UAE's eastern and western seaboards, combined with advanced logistics capabilities, and the introduction of Etihad Rail services, uniquely position us to offer sea, road, air and rail solutions, facilitating trade across Sharjah and the Northern Emirates, the UAE, and beyond.

Jabodebek LRT, Indonesia

Setting a new standard in transformative Rail and Metro infrastructure

Global Expertise, Local Impact

Our teams unite across borders to deliver resilient, forward-thinking rail and metro solutions, that drive local success. By harnessing cutting-edge technology and innovative approaches, we deliver excellent outcomes that meet the needs of today while anticipating future demands.

Solutions at Scale

Pioneering smart, sustainable solutions, we enhance urban connectivity by seamlessly integrating land, sea, and air transport. Our projects boost capacity, improve safety, and elevate customer experiences, embedding sustainability at every stage of design and delivery.

Limitless Imagination

Powered by intelligence and ingenuity, we challenge what's possible in mass transit infrastructure. Our teams push boundaries to create innovative rail solutions that redefine urban mobility.

Building a Future Legacy

Building a regenerative future is at the heart of our rail and metro initiatives. By integrating sustainable design from the outset, we ensure our projects leave a real impact for generations to come.

The General Administration of Abu Dhabi Customs is a government entity responsible for implementing the customs policy set by the competent authority in the United Arab Emirates. It serves as the primary gateway for the Emirate of Abu Dhabi in terms of overseeing the movement of passengers and goods across various border crossings and collecting customs duties according to the country's laws and regulations.

ABU DHABI INVESTMENT OFFICE

📍 United Arab Emirates
 ☎ +971 2 812 0000
 📩 jjohnson@adio.gov.ae
 🌐 www.investinabudhabi.ae

We are the Abu Dhabi Investment Office – ADIO. Our team helps investors and companies of all sizes establish their business, grow and develop in Abu Dhabi. As the central government hub supporting investment in Abu Dhabi, we are committed to growing the emirate's private sector and diversifying its economy. In fostering Abu Dhabi's innovation ecosystem, we enable opportunities that support long-term, sustainable success for investors and businesspeople based in the emirate and across the region.

ABU DHABI TRANSPORT COMPANY

📍 United Arab Emirates
 📩 Nouf.Alali@etihadrail.ae

Abu Dhabi Transport Company is dedicated to making transportation more accessible and efficient for people across the Emirate. By developing and managing a variety of urban and suburban transport options, including rail systems and innovative public transit solutions, ADT aims to enhance everyday mobility. In addition to expanding urban rail networks, utilising advanced technologies to support net zero agenda's. The company is committed to providing flexible, user-friendly transport options. Through these efforts, ADT supports Abu Dhabi's vision for a connected and integrated transport system, while also investing in the growth of the local transport industry, and thus contributing to the Emirate's livability and overarching ambition to be one of the top 30 cities in the global traffic index by 2045.

IRONLEV

📍 Italy
 📩 l.parrotta@ironlev.com
 🌐 www.ironlev.com

Ironlev® is an innovative magnetic levitation technology developed and patented by Ironbox, an Italian high-tech company based in Spresiano (TV). Technical simplicity, versatility of use, and low costs are the features of Ironlev®, which aims to "democratize magnetic levitation" and be installed on people movers, subways, high-speed trains, and even Hyperloop. Technically called "passive ferromagnetic levitation," the Ironlev® technology is as simple as it is revolutionary. It is based on iron rails, like those already adopted in existing railway networks. The carriages slide on these rails thanks to a passive floating system that does not require electrical power. This system minimizes friction, allowing heavy loads to be moved with extremely reduced forces. Designed with an eye towards the future of transportation, the versatility and simplicity of Ironlev® make it suitable for a wide range of sectors. Besides transportation, Ironlev® finds applications in industrial handling systems, architecture with sliding systems for doors and windows, and the elevator sector.

PT Celebes Railway Indonesia, known as PT CRI is a Business Entity (BE) operating in the field of railway transportation in Indonesia as a Rail Infrastructure Operator, particularly in South Sulawesi. The company is responsible for the maintenance and operation of railway tracks in the South Sulawesi region. In 2019, still only 37 days old, shortly before the first week of February amidst the usual hustle and bustle of Jakarta, a new milestone was achieved by the nation's citizens. A company that would make new history in Indonesia's transportation sector was born. In front of notary Nana Zaenah, S.H., PT Celebes Railway Indonesia (PT CRI) was established with Deed of Establishment Number 03, dated February 6, 2019, domiciled in East Jakarta, DKI Jakarta. This company operates in the fields of construction, procurement of infrastructure, and railway operations.

PT. MRT JAKARTA
3D20

📍 Indonesia
 ☎ +62 8122 359 7831
 📩 humasksln.djka@kemenhub.go.id
 🌐 www.jakartamrt.co.id

PT Mass Rapid Transit Jakarta (PT MRT Jakarta) was established on June 17, 2008 as Limited Liability Company with a majority of shares owned by the Provincial Government of DKI Jakarta as much as 99.98% and the rest is owned by PD Pasar Jaya as much as 0.02%. The scope of work of PT MRT Jakarta including the construction of MRT infrastructure and facilities, to operate and maintain infrastructure and facilities, as well as develop and manage property / business in Depo Lebak Bulus, stations and surrounding areas. MRT Jakarta development plan has actually been initiated since 1985. But only in 2005, the project was acknowledged as national project by President of the Republic of Indonesia. Phase 1 MRT Jakarta project was fully financed by Japan Bank for International Cooperation (JBIC) which is merged with Japan International Cooperation Agency (JICA) later on. JICA acts as an assessment team and JBIC as a lender. The project design was started in 2008-2009, and the construction phase was started in October 2013 with the target of finishing at the end of 2018. MRT Jakarta Phase 1 will operate in March 2019, with the route approximately 16 kilometers from Lebak Bulus, South Jakarta to Bundaran Hotel Indonesia, Central Jakarta. At Phase 1, it will be consisting of 7 elevated stations: Lebak Bulus, Fatmawati, Cipete Raya, Haji Nawi, Blok A, Blok M, Sisingamangaraja and 6 underground stations: Senayan, Istora, Bendungan Hilir, Setiabudi, Dukuh Atas, Bundaran Hotel Indonesia. With target of > 200,000 passengers in a day and flexibility to manage Transit Oriented Development (TOD) around the station area, MRT Jakarta optimists to be one of the leading rail-based transportation companies in Indonesia for safety, reliability, customer service and time efficiency.

Sener is a private engineering and technology group founded in 1956, which seeks to transform the world by challenging the boundaries of technology, with the mission of helping its clients with innovative and effective solutions, thanks to its differential values: innovation, excellence, commitment, passion and teamwork.

In the urban transport and railway sector, we provide comprehensive engineering services (design, construction, commissioning, operation and maintenance) which allows us to participate in all phases of a project and cover all technical disciplines with our own experts.

Our most notable projects include, among others, the London-Birmingham high speed, the California high speed, Panama metro line 1, Guadalajara metro line 3, Doha metro red line, Edinburgh tram, the Melbourne metro and the Montreal metro.

In total, Sener has worked on the studies and projects of more than 15,000 km of railway, which makes us one of the leading companies in this sector, in addition to having consolidated our international reputation as designers and suppliers of intelligent transportation systems.

Sener has approximately 4,000 professionals on five continents and has become a global leader in the mobility, advanced facilities for data centers, energy, marine and aerospace sectors. Through Sener Renewable Investments, Sener also has ownership stakes in companies working in renewable energy generation.

About Etihad Rail and dmg events

Etihad Rail

Etihad Rail was established under Federal Law No. 2 with the mandate of overseeing the development, construction, and operation of the UAE's national freight and passenger railway network.

Since 2016, Etihad Rail has successfully operated the Shah-Habshan-Ruwais route, transporting granulated sulphur for export, and establishing rail as a safe and sustainable mode of transport with a proven track record. In 2023, construction on the network expansion was completed, marking the inauguration of the UAE National Railway Network and the launch of full freight operations from Ghuwaifat to Fujairah.

Etihad Rail now links all the emirates, connecting industrial and commercial centres with 11 terminals, including four major ports: Ruwais Inland Terminal, Ruwais Port, Industrial City of Abu Dhabi (ICAD), Khalifa Port, Dubai Industrial City (DIC), Jebel Ali Port, Al Ghail Dry Port, Fujairah Port, Ghuwaifat Terminal, Shah Terminal, and Habshan Terminal.

dmg events

Headquartered in Dubai, United Arab Emirates since 1989, with offices in Canada, Egypt, Nigeria, Saudi Arabia, Singapore, South Africa, Thailand and the United Kingdom, dmg events is an international exhibitions, conference and intelligence company, attracting more than 1 million attendees to a portfolio of over 80 events each year.

The global portfolio works closely with key stakeholders across industries to facilitate pragmatic dialogue, serving as platforms for the latest discussions at the forefront of change.
